GENERAL REGULATIONS

1. During closed periods the heart walls of all salmon traps within the areas affected shall be lifted or lowered in accordance with the method prescribed by section 5 of the act of June 6, 1924. The tunnels from hearts to pots of all salmon traps shall be constructed of flexible webbing other than wire, and during all closed periods they shall be completely closed by pulling to one side of the pot. In addition, the spillers of all driven traps shall be raised to within 4 feet of the capping and the spillers of floating traps shall be raised to within 4 feet of the surface within 36 hours after the beginning of any seasonal closed period. Within 36 hours after the beginning of any seasonal closed period the tunnels from pots to spillers of all traps shall be entirely disconnected. In respect to traps not provided with spillers, the requirements in regard to spillers shall apply to the pots. In any prescribed fishing area prior to the first date when salmon traps may be operated in any calendar year, no trap or any part thereof, whether under construction or after completion, shall be so arranged or adjusted as to prevent the free and unobstructed passage at all times of all fish.

2. No trap shall have more than two spillers.

3. No salmon trolling boat shall carry or operate any seine or more than one gill net. The gill net shall be of mesh not more than 2½ inches stretched measure between knots, shall not be of greater than No. 20 gill-net thread, and shall not exceed 10 fathoms in length and 100 meshes in depth.

The use of any other form of gear, including trammel nets, diver nets, trawls, combination nets, hammerhead traps or any modification thereof, is prohibited at all times. No gill net shall include any webbing other than a single sheet hung between cork and lead lines. No gill net shall be used in any form of seining operations.

5. The use of any trawl in commercial fishery operations is prohibited: *Provided*, That this prohibition shall not apply to fishing operations conducted solely for the purpose of taking shrimp, or to commercial fishing for flounders when such fishing does not result in the capture, injury, or destruction of other food fish.

6. The use of dynamite or any other explosive in the taking or killing of any fish is prohibited.

7. The time used in the various areas for the enforcement of the law and the regulations that specify hours and days shall be as follows:

(a) In the southeastern Alaska area: Standard time of the one hundred and thirty-fifth meridian of west longitude, which is 1 hour slower than Seattle standard time.

(b) In the Bering River, Copper River, Prince William Sound, Resurrection Bay, Cook Inlet, Kodiak, Chignik, Alaska Peninsula, and Bristol Bay areas: Standard time of the one hundred and fiftieth meridian of west longitude, which is 2 hours slower than Seattle standard time.

(c) In the Aleutian Islands and Yukon-Kuskokwim areas: Standard time of the one hundred and sixty-fifth meridian of west longitude, which is 3 hours slower than Seattle standard time.

8. All persons engaged in fishery operations are warned to give due regard to all markers erected by the Department of Commerce.

9. In waters where a rack or weir is maintained by the Bureau of Fisheries for the purpose of counting salmon ascending to the spawning grounds, records of the catch of salmon shall be furnished daily by all operators to the local representative of the Bureau of Fisheries in charge, and upon notification by the Commissioner of Fisheries or his authorized representative that an excessive proportion of the run is being taken so that the escapement of any species is less than the 50 per cent specified by section 2 of the act of June 6, 1924, all commercial fishing operations shall at once be discontinued and shall not be resumed until permission therefor is granted by the Commissioner of Fisheries or his duly authorized representative. And if in any year it shall appear that the run of salmon in such waters has diminished there shall be required a correspondingly increased escapement, and upon notification by the Commissioner of Fisheries or his authorized representative all commercial fishery operations shall cease and shall not be resumed until such increased escapement has been secured.

10. The driving of salmon downstream and the causing of salmon to go outside the protected area at the mouth of any salmon stream are expressly prohibited.

11. During the inspection of the salmon fisheries by the agents and representatives of this department, they shall have at all times free and unobstructed access to all canneries, salteries, and other fishing establishments and to all hatcheries.

12. All persons, companies, or corporations owning, operating, or using any stake net, set net, trap net, pound net, or fish wheel for taking salmon or other fishes shall cause to be placed in a conspicuous place on said trap net, pound net, stake net, set net, or fish wheel the name of the person, company, or corporation owning, operating, or using same, together with a distinctive number, letter, or name which shall identify each particular stake net, set net, trap net, pound net, or fish wheel, said lettering and numbering to consist of black figures and letters, not less than 6 inches in length, painted on white ground.

13. If in the process of curing salmon bellies the remaining edible portion of the fish is not used, such action will be regarded as wanton waste within the meaning of section 8 of the act of June 26, 1906, and those who engage in this practice will be reported for prosecution as provided for in the act.

14. The taking of salmon for feed for fur-bearing animals shall be considered as commercial fishing and subject to all of the limitations in respect thereto.

15. Any increase in the amount of fishing gear employed or any expansion of fishery operations in any district in any season shall, in the discretion of the Secretary of Commerce, result in the immediate imposition of such additional restrictions as may appear necessary.

16. These regulations shall be subject to such change or revision by the Secretary of Commerce as may appear ad-

visable from time to time. They shall be in full force and effect immediately from and after February 8, 1937.

REGULATION IV—RELATING TO THE PAYMENT OF DEPOSITS AND INTEREST THEREON BY INSURED NONMEMBER BANKS

AS AMENDED FEBRUARY 10, 1937, TO BE EFFECTIVE FEBRUARY 11, 1937, SUPERSEDING REGULATION IV AS AMENDED JANUARY 23, 1936

Authority for and Scope of Regulation

This regulation is issued under authority of paragraph (8), subsection (v) of Section 12B of the Federal Reserve Act, as amended, which is published in the Appendix hereto.

This regulation relates to the payment of deposits and interest thereon by insured nonmember banks. This regulation is not applicable to banks which are members of the Federal Reserve System. Regulation Q, prescribed by the

¹ Effective at the opening of business on March 1, 1937, the requirements as to reserves to be maintained by each member bank will be 75 per cent above the requirements prescribed by section 19 of the Federal Reserve Act and, effective at the opening of business on May 1, 1937, the requirements as to reserves to be maintained by each member bank will be 100 per cent above the requirements prescribed by section 19 of the Federal Reserve Act.

Board of Governors of the Federal Reserve System for banks which are members of that System, is not applicable to insured banks which are not members of the Federal Reserve System, except to the extent that the State law of a particular State provides otherwise.

The provisions of this regulation do not apply to any deposit in a bank located outside of or payable only at a bank's office which is located outside of the States of the United States and the District of Columbia.

SECTION 1—DEFINITIONS

(a) *Demand deposits*.—The term "demand deposit" includes every deposit which is not a "time deposit" or "savings deposit", as defined below.

(b) *Time deposits*.—The term "time deposits" means "time certificates of deposit" and "time deposits, open account", as defined below.

(c) *Time certificates of deposit*.—The term "time certificate of deposit", means a deposit evidenced by a negotiable or nonnegotiable instrument which provides on its face that the amount of such deposit is payable:

(1) On a certain date, specified in the instrument, not less than 30 days after the date of the deposit; or

(2) At the expiration of a specified period not less than 30 days after the date of the instrument; or

(3) Upon written notice to be given not less than 30 days before the date of repayment.¹

(d) *Time deposits, open account*.—The term "time deposit, open account" means a deposit, other than a "time certificate of deposit" or a "savings deposit", with respect to which there is in force a written contract with the depositor that neither the whole nor any part of such deposit may be withdrawn, by check or otherwise, prior to the date of maturity, which shall be not less than 30 days after the date of the deposit,² or prior to the expiration of the period of notice which must be given by the depositor in writing not less than 30 days in advance of withdrawals.³

(e) *Savings deposits*.—The term "savings deposit" means a deposit evidenced by a pass book consisting of funds (i) deposited to the credit of one or more individuals or of a corporation, association or other organization operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes and not operated for profit,⁴ or (ii) in which the entire beneficial interest is held by one or more individuals or by such a corporation, association or other organization and in respect to which—

(1) The depositor is required, or may at any time be required, by the bank to give notice in writing of an intended withdrawal not less than 30 days before such withdrawal is made; or the bank consistently continues to adhere to a practice existing prior to January 23, 1936, of requiring notice of at least 15 days before permitting withdrawal;

(2) Withdrawals are permitted in only two ways, either (A) upon presentation of the pass book, through payment

to the person presenting the pass book, or (B) without presentation of the pass book, through payment to the depositor himself but not to any other person, whether or not acting for the depositor.⁵

The provisions of (i) and (ii) of this subsection (e), limiting savings deposits to funds of certain classes of persons shall not be applicable to deposits received and credited on or before February 1, 1936, to accounts evidenced by pass books in insured nonmember banks and these deposits, together with interest subsequently payable on such deposits, less any withdrawals from such accounts, may be classed by insured nonmember banks as savings deposits under the terms of this subsection, even though such deposits belong to an association, organization or corporation organized for profit. The said provisions of (i) and (ii), however, shall be applicable to deposits received subsequently to February 1, 1936, whether or not such deposits are credited to an account existing prior to February 1, 1936.

The presentation by any officer, agent or employee of the bank of a pass book or a duplicate thereof retained by the bank or by any of its officers, agents or employees is not a presentation of the pass book within the meaning of this regulation except where the pass book is held by the bank as a part of an estate of which the bank is a trustee or other fiduciary, or where the pass book is held by the bank as security for a loan. If a pass book is retained by the bank, it may not be delivered to any person other than the depositor for the purpose of enabling such person to present the pass book in order to make a withdrawal, although the bank may deliver the pass book to a duly authorized agent of the depositor for transmittal to the depositor.

Every withdrawal made upon presentation of a pass book shall be entered in the pass book at the time of the withdrawal, and every other withdrawal shall be entered in the pass book as soon as practicable after the withdrawal is made.

SECTION 2—DEMAND DEPOSITS

(a) *Interest prohibited*.—Except as hereinafter provided, no insured nonmember bank shall directly or indirectly, by any device whatsoever, pay any interest on any demand deposit. Within this regulation any payment to or for the account of any depositor as compensation for the use of funds constituting a deposit shall be considered interest.

(b) *Exceptions*.—The prohibition stated in subsection (a) above does not apply to—

(1) Payment of interest accruing before August 24, 1937, on any deposit made by a "savings bank"⁶ as defined in Section 12B of the Federal Reserve Act, as amended, or by a mutual savings bank;

(2) Payment of interest accruing before August 24, 1937, on any deposit of public funds⁷ made by or on behalf of any State, county, school district, or other subdivision of municipality, or on any deposit of trust funds, if the payment of interest with respect to such deposit of public funds or of trust funds is required by State law when such deposits are made in State banks;

(3) Payment of interest in accordance with the terms of any certificate of deposit or other contract which was lawfully entered into in good faith before February 1, 1936 (or, if the bank became an insured nonmember bank thereafter, before the date upon which it became an insured nonmember bank), which was in force on such date, and which may not legally be terminated or modified by such bank at its option and without liability; but no such certificate of deposit or other contract may

¹ If the certificate of deposit provides merely that the bank reserves the right to require notice of not less than 30 days before any withdrawal is made, the bank must require such notice before permitting withdrawal.

² Deposits, such as Christmas club accounts and vacation club accounts, which are made under written contracts providing that no withdrawal shall be made until a certain number of periodic deposits have been made during a period of not less than 3 months, constitute "time deposits, open account" even though some of the deposits are made within 30 days from the end of such period.

³ If a deposit be made with respect to which the bank merely reserves the right to require notice of not less than 30 days before withdrawal is made, the bank must require such notice to be given before permitting withdrawal.

⁴ Deposits in joint accounts of two or more individuals may be classified as savings deposits if they meet the other requirements of the above definition, but deposits of a partnership operated for profit may not be so classified. Deposits to the credit of an individual of funds in which any beneficial interest is held by a corporation, partnership, association or other organization operated for profit or not operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes may not be classified as savings deposits.

⁵ Presentation of a pass book may be made over the counter or through the mails; and payment may be made over the counter, through the mails or otherwise, subject to the limitations of paragraph (2), subsection (e), Section 1 as to the person to whom such payment may be made.

⁶ Section 12B (c) (7) of the Federal Reserve Act which defines the term "savings bank" is quoted in the Appendix hereto.

⁷ Deposits of moneys paid into State courts by private parties pending the outcome of litigation are not deposits of "public funds", within the meaning of the above provision.

be renewed or extended unless it be modified to eliminate any provision for the payment of interest on demand deposits, and every insured nonmember bank shall take such action as may be necessary, as soon as possible consistently with its contractual obligations, to eliminate from any such certificate of deposit or other contract any provision for the payment of interest on demand deposits.

(c) Deposits in "savings banks"⁶ in specifically designated deposit accounts with respect to which withdrawal by checking is permitted in accordance with paragraph (7), subsection (c), Section 12B of the Federal Reserve Act, as amended, shall for the purposes of this regulation be classed as demand deposits.

SECTION 3—MAXIMUM RATE OF INTEREST ON TIME AND SAVINGS DEPOSITS

(a) *Maximum rate prescribed from time to time.*—Except in accordance with the provisions of this regulation, no insured nonmember bank shall pay interest on any time deposit or savings deposit in any manner, directly or indirectly, or by any method, practice, or device whatsoever. No insured nonmember bank shall pay interest on any time deposit or savings deposit at a rate in excess of such applicable maximum rate as the Board of Directors of the Federal Deposit Insurance Corporation shall prescribe from time to time; and any rate or rates which may be so prescribed by the Board will be set forth in supplements to this regulation, which will be issued in advance of the date upon which such rate or rates become effective.

(b) *Modification of contracts to conform to regulation.*—No certificate of deposit or other contract shall be renewed or extended unless it be modified to conform to the provisions of this regulation, and every insured nonmember bank shall take such action as may be necessary, as soon as possible consistently with its contractual obligations, to bring all of its outstanding certificates of deposit or other contracts into conformity with the provisions of this regulation.

(c) *Savings deposits received during first five days of month.*—An insured nonmember bank may pay interest on a savings deposit received during the first five days of any calendar month at the applicable maximum rate prescribed pursuant to the provisions of subsection (a) of this section, calculated from the first day of such calendar month until such deposit is withdrawn or ceases to constitute a savings deposit under the provisions of this regulation, whichever shall first occur.

(d) *Continuance of time deposit status.*—A deposit which was a time deposit at the date of deposit continues to be such until maturity although it has become payable within 30 days, and interest at a rate not exceeding that prescribed pursuant to the provisions of subsection (a) of this section may be paid until maturity upon such deposit. A time deposit or a savings deposit, with respect to which notice of withdrawal has been given, continues to be such until the expiration of the period of such notice, and interest may be paid upon such deposit until the expiration of the period of such notice at a rate not exceeding that prescribed pursuant to the provisions of subsection (a) of this section. Interest at a rate not exceeding that prescribed pursuant to the provisions of subsection (a) of this section may be paid upon savings deposits with respect to which notice of intended withdrawal has not actually been required or given. No interest shall be paid by an insured nonmember bank on any amount which by the terms of any certificate or other contract, or agreement, or otherwise, the bank may be required to pay within 30 days from the date on which such amount is deposited in such bank,⁷ except as to savings deposits with

respect to which the bank consistently continues to adhere to a practice existing prior to January 23, 1936, of requiring notice of at least 15 days before permitting withdrawal.

(e) *No interest after maturity or expiration of notice.*—*Exception.*—No interest shall be paid on any time or savings deposit for any period subsequent to maturity, whether such deposit matures by its terms on a specific date or at the expiration of a notice period pursuant to written notice actually given, except if a time certificate is renewed within 10 days after maturity, the renewal certificate⁸ may draw interest from the maturity date of the matured certificate.

SECTION 4—PAYMENT OF TIME DEPOSITS BEFORE MATURITY

(a) *Time deposits payable on a specified date.*—No insured nonmember bank shall pay any time deposit, which is payable on a specified date, before such specified date, except as provided in subsection (d) of this section.

(b) *Time deposits payable after a specified period.*—No insured nonmember bank shall pay any time deposit, which is payable at the expiration of a specified period, before such period has expired, except as provided in subsection (d) of this section.

(c) *Time deposits payable after a specified notice.*—No insured nonmember bank shall pay any time deposit, with respect to which notice is required to be given a specified period before any withdrawal is made, until such required notice has been given and the specified period thereafter has expired, except as provided in subsection (d) of this section.

(d) *Loans upon security of time deposits.*—An insured nonmember bank may make a loan to the depositor upon the security of his time deposit, provided that the rate of interest on such loan shall be not less than 2% per annum in excess of the rate of interest on the time deposit.

Where a loan to the depositor upon the security of his time deposit upon terms satisfactory to the insured nonmember bank and the depositor cannot be arranged, and where the depositor signs a written statement to be kept in the files of the bank that he is in need of money represented by the time deposit before the maturity thereof, stating the definite amount needed, the time deposit may be paid before maturity to the extent required to meet such need, but the depositor shall forfeit accrued and unpaid interest for a period of not less than three months on the amount withdrawn. When a portion of a time certificate of deposit is paid before maturity, the certificate shall be cancelled and a new certificate shall be issued for the unpaid portion of the deposit, with the same terms, rate, date and maturity as the original deposit.

SECTION 5—NOTICE OF WITHDRAWAL OF SAVINGS DEPOSITS

(a) *Requirements regarding notice.*—An insured nonmember bank shall observe the requirements set forth as follows in requiring notice of intended withdrawal of any savings deposit or part thereof or in permitting withdrawal without requiring such notice:

(1) If an insured nonmember bank pay any amount or percentage of the savings deposits of any depositor without requiring such notice, it shall, upon request, and without requiring such notice, pay the same amount or percentage, of the savings deposits of every other depositor, subject to the same notice requirement, except if the bank changes its practice in accordance with subsection (b) of this section.

(2) If an insured nonmember bank requires such notice before the payment of any amount or percentage of the savings deposits of any depositor, it shall require such notice before the payment of the same amount or percentage of the savings deposits of any other depositor, subject to the same notice requirement, except if the bank changes its practice in accordance with subsection (b) of this section.

Even though the bank's practice is to require notice, an insured nonmember bank is not prevented by this regulation.

⁸ Where a time certificate is renewed within 10 days after maturity, the renewal certificate may be dated back to the maturity date of the matured certificate.

⁶ Section 12B (c) (7) of the Federal Reserve Act which defines the term "savings bank" is quoted in the Appendix hereto.

⁷ Deposits, such as Christmas club accounts and vacation club accounts, which are made under written contracts providing that no withdrawal shall be made until a certain number of periodic deposits have been made during a period of not less than 3 months, constitute "time deposits, open account" even though some of the deposits are made within 30 days from the end of such period.

from paying during the next succeeding interest period without requiring notice of withdrawal interest on a savings deposit which has accrued during the preceding interest period.

(b) *Requirements regarding change of practice.*—No insured nonmember bank shall change its practice with respect to the requiring or not requiring of notice of intended withdrawal of savings deposits, except after duly recorded action of its board of directors or of its executive committee properly authorized, and no practice in this respect shall be adopted which does not conform to the requirements of paragraphs (1) and (2) of this section.

(c) *Change of practice for purpose of discrimination.*—No change in the practice of an insured nonmember bank with respect to the requiring or not requiring of notice of intended withdrawal of savings deposits shall be made for the purpose of discriminating in favor of or against any particular depositor or depositors.

(d) *Requirements applicable although no interest paid.*—An insured nonmember bank shall observe the requirements of this section with respect to savings deposits even though no interest be paid on such deposits.

(e) *Loans upon security of savings deposits.*—An insured nonmember bank may make a loan to any of its depositors upon the security of his savings deposits, provided that if the bank's practice is to require notice before permitting withdrawal of any amount or percentage of the savings deposits of any depositor, it shall require like notice before permitting a loan on the security of the same amount or percentage of such deposits.

APPENDIX STATUTORY PROVISIONS

Paragraph (8), subsection (v) of Section 12B of the Federal Reserve Act, as amended, provides as follows:

(8) The board of directors shall by regulation prohibit the payment of interest on demand deposits in insured nonmember banks and for such purpose it may define the term "demand deposits"; but such exceptions from this prohibition shall be made as are now or may hereafter be prescribed with respect to deposits payable on demand in member banks by section 19 of this Act, as amended, or by regulation of the Board of Governors of the Federal Reserve System. The board of directors shall from time to time limit by regulation the rates of interest or dividends which may be paid by insured nonmember banks on time and savings deposits, but such regulations shall be consistent with the contractual obligations of such banks to their depositors. For the purpose of fixing such rates of interest or dividends, the board of directors shall by regulation prescribe different rates for such payment on time and savings deposits having different maturities, or subject to different conditions respecting withdrawal or repayment, or subject to different conditions by reason of different locations, or according to the varying discount rates of member banks in the several Federal Reserve districts. The board of directors shall by regulation define what constitutes time and savings deposits in an insured nonmember bank. Such regulations shall prohibit any insured nonmember bank from paying any time deposit before its maturity except upon such conditions and in accordance with such rules and regulations as may be prescribed by the board of directors, and from waiving any requirement of notice before payment of any savings deposit except as to all savings deposits having the same requirement. For each violation of any provision of this paragraph or any lawful provision of such regulations relating to the payment of interest or dividends on deposits or to withdrawal of deposits, the offending bank shall be subject to a penalty of not more than \$100, recoverable by the Corporation for its use.

Paragraph (7), subsection (c) of Section 12B of the Federal Reserve Act, as amended, provides as follows:

(c) As used in this section—

(7) The term "savings bank" means a bank (other than a mutual savings bank) which transacts its ordinary banking business strictly as a savings bank under State laws

imposing special requirements on such banks governing the manner of investing their funds and of conducting their business: *Provided*, That the bank maintains, until maturity date or until withdrawn, all deposits made with it (other than funds held by it in a fiduciary capacity) as time savings deposits of the specific term type or of the type where the right is reserved to the bank to require written notice before permitting withdrawal: *Provided further*, That such bank to be considered a savings bank must elect to become subject to regulations of the Corporation with respect to the redeposit of maturing deposits and prohibiting withdrawal of deposits by checking except in cases where such withdrawal is permitted by law on the effective date from specifically designated deposit accounts totaling not more than 15 per centum of the bank's total deposits.

Adopted by the Board of Directors on February 10, 1937.

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 10th day of February A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE ANDERSON-PRITCHARD-HARE NO. 1 FARM, FILED ON FEBRUARY 3, 1937, BY DEALERS ROYALTY COMPANY, INC., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the price of oil set forth in Item 1, Division II, is not the price of oil of the gravity shown in Item 18 (b), Division II;

(2) In that the gross production tax set out in Item 11, Division II, is not in accord with the same tax set out in Item 12 (b), Division II;

(3) In that the total production stated in Item 15, Division II, does not agree with the aggregate of production by months shown in Item 16 (a), Division II;

(4) In that the figures set forth in Items 16 (c) and 16 (d), Division II, are incorrectly calculated for June through September, inclusive;

(5) In that the price paid for oil as shown in Item 16 (e), Division II, does not agree with the price paid for oil of the gravity shown in Item 18 (b), Division II;

(6) In that Item 18 (a) (viii) is omitted;

(7) In that the statement appears in Item 13, Division II, that "the field has good conformity and there are practically no dry holes within the producing areas, which has caused a closer development than is ordinarily found" and omits to state that there are comparatively large areas in the field which have no wells. The number of producing wells in the "Mansion Area" is not up to date.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 11th day of March 1937 that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission, be and hereby is designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 24th day of February 1937 at 9:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.
